

NOT-SO-GENTLE PERSUASION

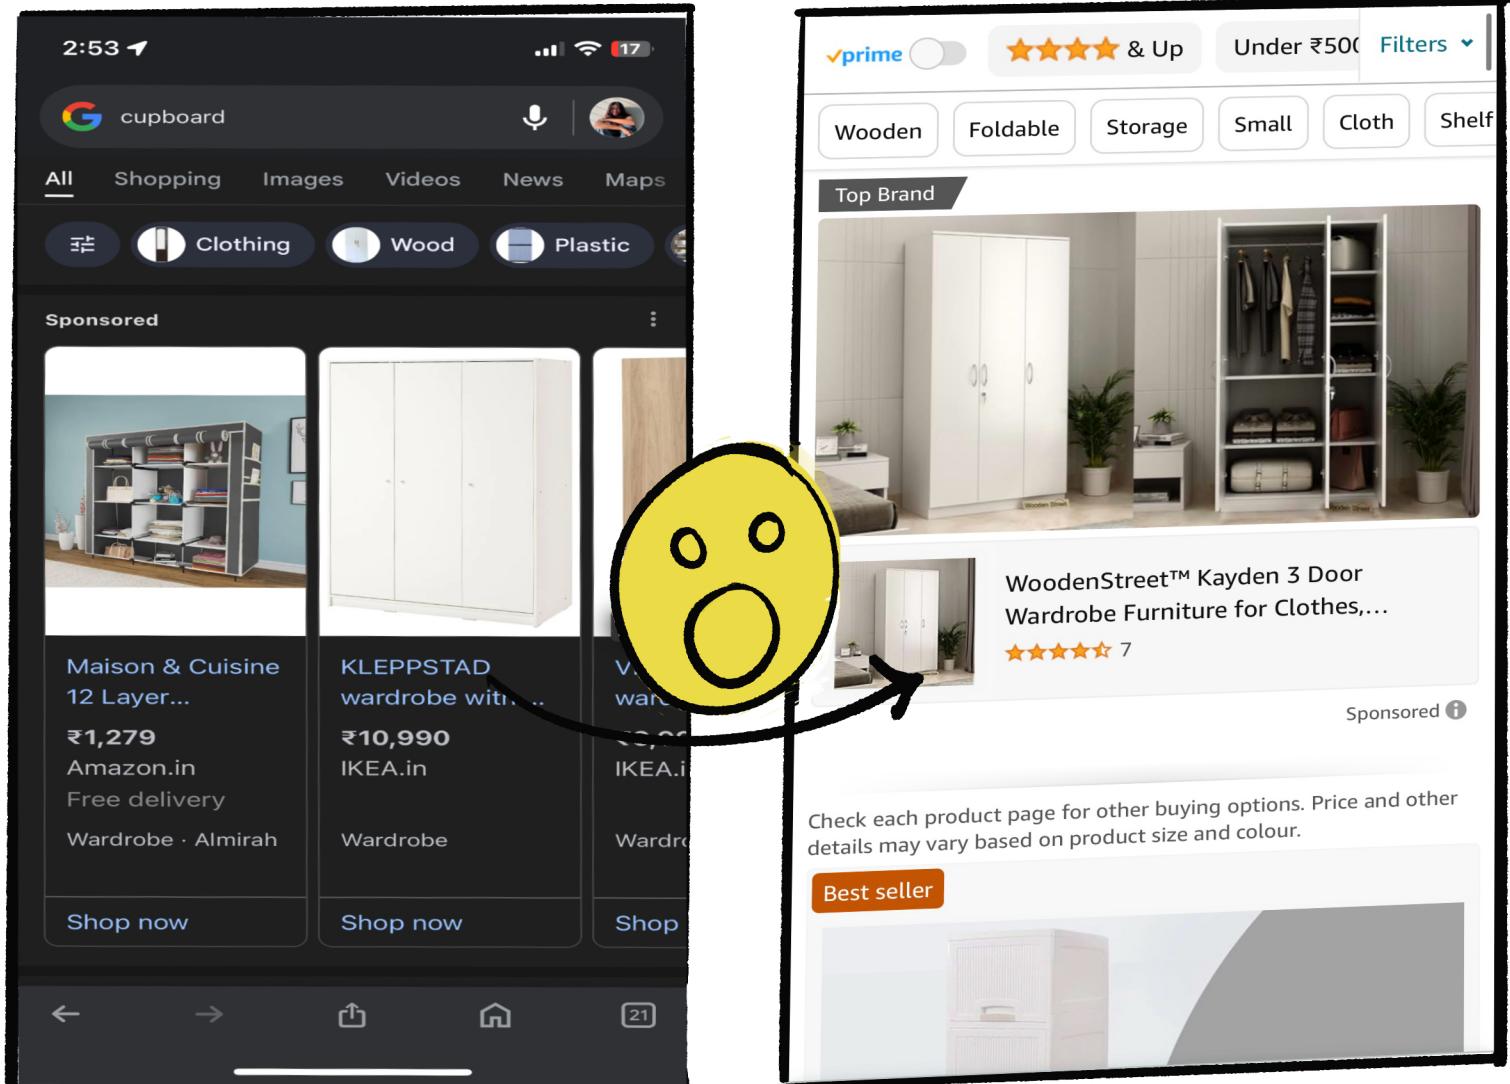

The human interacts with the car

This humorous scenario like kicking the car to jumpstart it, the influence is primarily centered around the human's action and decisions impacting the situation.

This is a depiction of problem solving through physical action, the physical impact and the navigation of the car, as well as the emotional influence on the car is a cause and effect interaction.

THE OVERLY FRIENDLY ALGORITHM

The Algorithm slyly influences you into purchasing the product, you only searched once on the web. IT Starts with targeted ads, uses appealing emotional language, and give few hundred suggestions, Little do you know, the algorithm has slowly wrapped you around its pinky, and you've bought the product!

WHEN CHER SHOPS, AI CALLS THE SHOTS

The satirical take on Cher's Smart Closet from "Clueless" highlights the balance between personal taste and intuition, and machine logic in making fashion choices. Cher's iconic style and the closet's algorithmic assistance.
